elevaite365® WAVEREADY PARTNER NETWORK

The Universal Pain Point

- Microsoft Dynamics 365 Applications are continuously evolving platforms with frequent, mandated updates
- To ensure business-critical processes such as reporting and cash flow are not disrupted, each update must be thoroughly tested before deployment
- elevaite365 Test Automation is a Microsoft Recommended solution enhanced with AI that reduces the time, cost and risks of manual testing by up to 90%

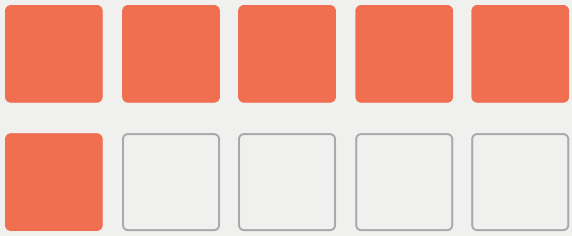

'WaveReady Partner Network enables SI Partners to effortlessly deliver Dynamics 365 release assurance as a managed service — with simple, predictable per-client pricing.'

Magnus Perri, Group CEO of elevaite365

(1 application slot)

Dynamics 365 Finance
Integration Hubspot
Integration Shopify

Customer C
(2 application slots)

Dynamics 365 Business Central
Dynamics 365 Sales

elevaite365® WAVEREADY PARTNER NETWORK

Testing as a Service with elevaite365 Test Automation

With Microsoft moving away from traditional release waves to a continuous innovation model, the need for automated regression testing has never been higher.

This change has clear benefits for Dynamics 365 customers: faster access to new features, enhancements and efficiencies, but this also means more testing as every update and change needs to be validated.

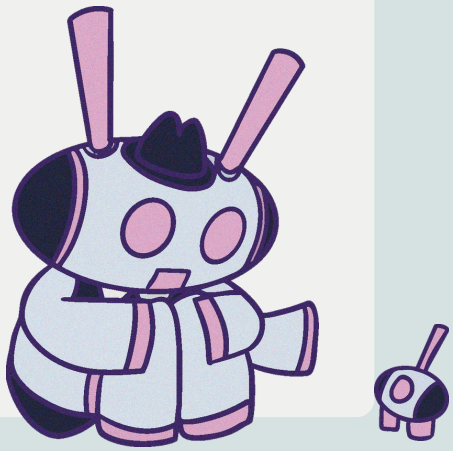

elevaite365 WaveReady Partner Network brings together our proven technology and a simple, predictable license model so Microsoft Partners can deliver continuous operational excellence for D365 customers.

Less Risk.
More Runway.

WaveReady Capacity Packs have an official start date of either 1st January or 1st July, with complimentary access until the next renewal.

About elevaite365 Test Automation

- Recommended by Microsoft
- Comprehensive end-to-end testing of D365 Applications, Customizations, Integrations and Windows Desktop Applications
- Easy implementation including conversion of RSAT test scripts and growing library of customizable templates
